Mr. S. R. Morss
R. 3 Bradford
Mass., U.S.A.

Dear Sir:

We are pleased to acknowledge and verify your report of our test programme of November 7.

Continual adjustment of the transmitter during the broadcast would probably account for some of the fading.

We expect to be on the air again toward the latter part of this week. Any comment on reception, should you pick us up, would be appreciated.

Thank you and good luck.

Yours truly
Harold M. Stacet

Chief Engineer
